Actively expanding proficiency in both frontend and backend technologies.

Skills

HTML,CSS, JavaScript,Tailwind CSS, Bootstrap,React,Git&Github

Projects

Real Estate Web App

- Implemented a seamless and efficient user experience using React Router DOM to transform the real estate website into a Single Page Application (SPA).
- Incorporated an external web form for user inquiries and contact, enhancing user interaction and communication.
- Implemented an infinite scroll feature for brands, allowing users to explore a diverse range of content seamlessly, providing a dynamic and enjoyable browsing experience.
